“GLOBAL SOLUTION PARTNER”

SHORT HISTORY AND GOALS OF THE COMPANY

AFERKO Stone has been established in İstanbul with the aim of contributing to the modern and modern level of the construction sector with the construction of medium and large scale projects in Turkey and abroad.

Introduction of Turkish Natural Stones in combination with advanced technology and architectural skills, quality materials and workmanship and timely completion in line with the commitments given by the projects.

AFERKO Stone aims to create a new peak with having an experienced dynamic team and advanced knowledge in the natural stone industry.

Marble is a gift of nature to mankind. Aferko Stone makes investments to form marble and bring to our habitats with an effective usage of energy in manufacturing process for decreasing damage to the nature. Aferko Stone is characterized as one of the sources that provide safe production of International Quality Standards.

Our goal is to provide variety of high quality products and better service to our valued customers and colleagues.

Having high tech equipments, skilled labors, different product ranges and on-time production give us the highest level of customer satisfaction.

We are proud and happy to offer the best quality products and service to the whole world .
